

Welcome to TiE Brussels Chapter

“Life is about the people you meet and the things you create with them.” The geographical position of TiE Brussels offers a unique opportunity to interact with decision-making bodies in order to promote Entrepreneurship & Innovation at an institutional level in Europe and in the world.

Great entrepreneurs and business leaders, while under severe time-constraints, can provide invaluable ideas based on their outstanding business experience and constant exposure to business realities.

We are experiencing an extraordinary period of human history whereby economies are re-defining and re-inventing themselves. Such ideas when properly communicated to the right stakeholders may boost Entrepreneurship & Innovation.
